The Hebrew New Year

On Monday and Tuesday next the 14th and 15th days of the month our Hebrew fellow citizens will celebrate the festival of their New Year, known to them as ROSH HA SHANAH—beginning of the year A As they, according to the injunction of the Bible Leviticus 23, 5, observe their festivals 'from eve to eve' the ceremonial will begin on Sunday eve and continue till Tuesday eve The character of this festival is peculiarly solemn, as are indeed the whole history and economy of that people, so that even their festive rejoicings are eminently religious and charitable 'And ye shall rejoice before the Lord your God (it shall be a rejoicing tempered by the spirit of religion) ye your sons and your daughters your man servants and your maid servants and the Levite that lives within your gates—for he has no portion (of landed property) with you' and also, in another place there are added, 'The Levite, the stranger, the orphan and the widow that live within thy gates' The day derives its solemnity not solely from being the new year, but also from the deeper symbolic character of the month and the festivals celebrated during its term We cannot, in this notice, refer to the nature of these symbols but we are glad that we can inform our readers that an opportunity will be given for fully understanding them, this year, at the Synagogue in this city, corner of Fifth and Oak, streets, as our Hebrew citizens have secured the attendance of Rev Julius Eckman, D D of San Francisco, who will officiate during the Holy days, and from his well known ability and deep research, we have no doubt that instructive discourses upon these interesting topics will be delivered The public is cordially invited to witness the exercises and to listen to the explanation of Biblical ceremonies and symbols, as the Synagogue is a place of worship, open for all whom its space can admit

Though we are not familiar with the congregational affairs of the Hebrews here, it is proper to say that soon after they had overcome the difficulties of new settlers, they formed a society, built a chaste and appropriate Synagogue, provided themselves with such official services as their ceremonies require and for the instruction of their children in their own ancient faith, and having accomplished these, they have now erected a neat and elegant school house, near to the Synagogue, in which three teachers are at present employed The various branches of education are taught as in other schools, during the ordinary school hours, and also lessons in the German language are given to all whose parents wish To this time the school has been entirely unsectarian, aiming only at being select, and has admitted indiscriminately pupils of all creeds and nations The Hebrew children are, however, specially instructed in their own language out of the regular school hours

We understand that the congregation, still anxious for advancement, are making efforts to secure for the school and the Synagogue, the services of the reverend gentleman above alluded to, who has a high reputation as a zealous and accomplished teacher, through his successful labors in his Seminary at San Francisco, known as the Harmonia School, and by his faithful editorship for several years of *The Gleaner*, the organ of the Hebrews on this coast

We hope the effort may be attended with success, and we heartily wish our neighbors abundant prosperity and joy at the beginning of and through the new year about to open before them

THE CATTLE ORDER RESCINDED —The order issued by the Secretary of War to prohibit the exportation of cattle has been rescinded so far as this coast is concerned Hereafter the people of Victoria can get beef from Puget Sound without resorting to smuggling or war The order, as issued originally, was not intended to apply to the Pacific coast, but only to those regions which might be deprived of part of their material which might be useful in war The present order, Sept 4th, is as follows

T W B Farwell, Collector, San Francisco The order prohibiting the exportation of live stock has been modified so far as to allow exportation from any part of the United States on the Pacific coast Send copy of this to all the Collectors S P CHASE

SUPREME COURT —The following named gentlemen have been admitted to practice in the Supreme Court of the State of Oregon F F Russell, Jacksonville; J F Watson, Douglas county, J J Walton, jr, Lane county, I N George, Linn county, Messrs Bellinger, Knight and Applegate Marion county, J Looy Clackamas county, D W Litchenthaler, Multnomah county J S Reynolds, Wasco county The examining committee were, Gov Gibbs, W W Page, and S Ellsworth

THE REBELS EXPECTING TO LOSE THEIR SEAPORTS —The Richmond *Dispatch* of the 17th inst, says

"We have made our calculation long ago that all the towns within reach of the enemy's navy would fall"

LEAVES TO DAY —The steamer *Sierra Nevada* leaves this port for San Francisco *via* Victoria this evening at five o'clock

Affairs in New York

Late Eastern papers and correspondence of the existence of great hostility to the measures of the Administration in enforcing the draft and a disposition on the part of professed Democrats, almost to encourage the renewal of riotous demonstrations For instance, the *Daily News*—Fernando Wood's organ—trying to make it appear that any attempt to enforce the draft would provoke another outbreak of savage Copperheads, published the following appeal

'Again we lift our voice in supplication Deal justly with the people for there is fire kindled in the inmost heart and in nostril and mouth breath of tyranny to rage and to destroy Not for fear, but in the spirit of unfeigned confession but for duty and justice sake let those in power avoid provocation and harsh measures and seek rather to conciliate and soothe We have sent reporters among the people, truthful and keen minded men—chosen because they were not of our political complexion, but long identified with journals of an opposite sentiment We desire that the public and the Administration should know what the masses think and what they say We ask attention to the significance of these reports Revolution threatens to break in upon us The next act of official injustice may break this calm as the thunderbolt does the sultry summer night Let our statesmen, and especially those most in favor with the Government, send out their people to observe, as we have done Let them question and listen and look around They will hear and see the evidences of deep seated, foreboding dissatisfaction every where'

The *World* thus ventured to broach a programme of organized revolution the moment the loyal States—a programme which of itself proves that journal to be one of the basest organs of treason in the whole North

'It is now (at length evident to all but wilfully blind, that the rescue of the Cushetun from the hands of its official violators requires a vigorous and determined struggle The precise measures to be adopted for this purpose must depend, in part, upon future contingencies, and there is needed the greatest wisdom and caution as well as promptness and resolution, that the effort may not miscarry by irretrievable false steps and precipitate action Where there is a will, if the cause be righteous, there need be no apprehension that we shall discover a fitting way if we do not fail to appreciate the magnitude of the undertaking, and squander in spasmodic, disconnected efforts the strength that should be exerted in accordance with a well weighed and concerted plan The first thing to be attained is obviously a perfect understanding among the friends of the Constitution throughout the loyal States We must ascertain, through the ordinary methods of preliminary political action, what is the probable number of bold, courageous, determined men, who are sufficiently masters of themselves and of the passions generated in a vehement struggle, to submit their conduct to the wise direction required for attaining the ends by which strength is economized and a movement clothed with the moral power that will render it formidable to the foes of the Constitution We are to start, then with a full determination not to be put down, and with the fullest exercise of that right of appeal to the public judgment which is the main spring of all political action under free governments The subsequent steps will develop themselves with the progress of events'

The position taken by Gov Seymour is also one of very suspicious loyalty In an official paper, seeming almost to belly the President in regard to his proposed action, he says

"I do not dwell upon what I believe would be the consequence of a violent harsh policy before the constitutionality of the act be tested You can scan the future as well as I The temper of the people to day you can readily learn by consulting, as I have done with men of *all political parties*, and of every profession and occupation"

His idea seems to be to refuse compliance with the law, till its constitutionality is affirmed by the court, and thus leave the government at the mercy of the rebellion, till a statute presumed to be valid is found to be otherwise Such a policy would suspend the operation of all laws, and make their enactment only a means of introducing them to the public, by whom they need not be obeyed till the courts pronounce them constitutional This is Seymour's boasted patriotism and fidelity to duty!

THE ENERGY OF THE METHODISTS —The *New Covenant*, a Universalist publication of Chicago, thus refers to Methodist activity

"We cannot but contrast our inactivity with the energy and vitality of many of the other sects Take the Methodist for instance Thirty years ago the number of Methodists in Chicago was ten, to day they number some eight or ten large societies and are numerous enough to contribute to the Foreign Mission cause $6,162, They have just delegated Rev Mr Slaughter, one of their most efficient clergymen, to carry Methodism into Arizona, to preach, organize societies, start Sabbath schools and prepare the way for an influx of Methodist ministers, and the establishing of Methodist churches in that new country, and before the first Universalist sermon shall have been preached in Arizona, we doubt not there will be scores of Methodist societies there in full and successful operation The Methodists are also preparing to send missionaries into the desolated wastes of Missouri, to gather together the scattered people on the border to quench the infernal fires of that unhappy State to rebuild the overthrown altars, and to reestablish the almost extinct societies of their communion A call is issued from the distracted State for help of this kind, and no sooner sounds the appeal than Methodism swarms from some unknown hive a host of willing laborers Consequently Methodism keeps ever in the vanguard of civilization and wherever men commence a settlement there penetrates the Methodist clergyman and there first uprises a Methodist church"!

HOW IS PEACE TO BE SECURED?—Some of the Democratic journals are inquiring by what process Peace may be secured They seem to deem it a difficult matter—necessarily full of embarrassments and complications But is this likely to be so? If those in rebellion lay down their arms and resume their allegiance Peace under the old Constitution comes as a matter of course Take a single State—Tennessee, for instance Suppose the Rebel army driven from its borders and every citizen loyal to the old flag Who would interpose to prevent them from enjoying and exercising all their former privileges and immunities as citizens of a sovereign State of the Union? They would be welcomed with an 'All Hail!' from every loyal heart and so would the People of any other State under like circumstances It would require the erection of no new machinery to put the old Union cogs in motion —*Albany Journal*

PRESIDENT MAKING IN PROGRESS —In spite of the war, there is a great deal of excitement and wire pulling in relation to the Presidential election in 1864 Prominent Republican candidates are Gov Chase, Gen Fremont and Mr Lincoln—though the latter personally wishes not to be canvassed The Chase men claim to represent the most powerful in the Republican party The Copperheads seem to agree upon Horatio Seymour, Governor of New York and that individual is manoeuvring his wits to catch the sheep But he has to run to Wood and the ultra Conservatives in addition against him and his own State he will be defeated in a nomination convention Vallandigham is spoken of to have Presidential aspirations, but as he will be laid on the shelf in the meantime it is impossible that his chances for Presidential nomination can still be seriously considered There is a movement on foot among the Democratic leaders to nominate James Guthrie of Kentucky as a Union candidate But it has to run under cover to keep away the fire The war against the rebellion will decide the next Presidency It is crushed out by November 1864 the popular election of President Lincoln will certainly follow and his election would be a certainty Excepting McClellan and Banks no General has been brought out by the war as a candidate for the Presidency The steady perseverance and patient and silent course of Gen Banks make him strong with the people but that is not important as people in his behalf Certainly he would be a strong candidate in matters of mind — *the letter*

The above is published to show what one man observes, and that President making is going on and ought for the present to be postponed till the mighty work of crushing the rebellion is accomplished for we have no hesitancy in saying that in our view ten Banks will be found the strong arm for the defense and for the country All things considered, we believe he has more of the elements which the nation now needs and demands in a President than any other, whose name is likely to be presented That is our opinion which is as good as many boys that has no better, and we hope to vote for him or Andrew Johnson, and will not object to voting for both in one ticket, acting not much which of the two the leading position But we have to propose that Banks and Johnson will be the Union candidates If so we shall have an Administration of firmness honor and freedom

STANDING BY THE GOVERNMENT —The following remarks by Hon Peter H Burnett, of San Jose—formerly of this State, will be read with satisfaction by many of his old neighbors and friends

'I am of the opinion that it is the duty and true interest of every American citizen to give his most earnest and unflinching support to the National Government in its efforts to suppress this rebellion; and this without conditions for I know not, as yet how to propose conditions to my country We must trust our country If we cannot put trust in the National Councils, where shall we place it? The Union is above all earthly considerations Its value cannot be fully estimated There is, in my view, but one great paramount question at issue, and that is the integrity of the Union As a practical mode of giving an efficient support to the National Government, I think all mere party organizations should be discarded for the time and all loyal men should form but party When men are struggling in the water to get to the shore, there is no time to discuss ordinary matters The nation is now struggling for existence, and we must save it We should place a fair and generous confidence in those whom the people placed at the head of public affairs I do not know Abraham Lincoln as a Republican, but only as President of the United States I care not who elected him, he is now as much my President as if I had supported him at the polls I know he was elected constitutionally by those I recognize as fellow citizens, and that is all I ask Some of his official acts do not meet my concurrence but no President of our country was ever placed in so difficult a position as President Lincoln and no man living could have filled the office at such a time without committing some grave error But he is right and in earnest on the main question"

THE QUESTION OF RECOGNITION — Malakoff," the very well posted Paris correspondent of the N Y *Times* has the following

"There is still much discussion as to the Emperor's views on the question of recognition in America In general the opinion is accepted that his Majesty is in favor of separation, and perhaps of recognition It is believed that he really committed himself to both these doctrines in his conversation with Messrs Lindsay and Roebuck But there are two considerations in connection with this subject of paramount importance It is exactly in the Emperor's habit to try to gain his ends by menaces, and he dare not act without the consent of England unless the Confederacy shall have come nearer establishing its independence than it has at this moment The members of this Government must, therefore not frighten anybody, and it must be kept in mind that there is little danger of England entering into the arrangement with France The Spanish Government has officially denied the reports in the papers to the effect that it was in negotiation with France on the subject of recognizing the South'

DEMOCRACY TRYING TO LIVE AGAIN —A Washington letter states that the Democratic leaders throughout the country are making secret efforts to see on what basis a union of the various elements can be had so as to present an unbroken front in the campaign which will open with Congress Their success depends their efforts In New York Governor Seymour is trying two courses—war and peace—and finds it daily more difficult to please the parties around him at home The extreme Conservatives, headed by Wood Vallandigham Brooks etc grow more intense in their secession proclivities but, I am pleased to say, do not seem to increase their number Since the Anti War riots a greater reaction has set in than is diminishing the power and influence of the Democratic leaders In Ohio it is predicted by sensible men from that State Vallandigham will be defeated by fifty thousand majority Some of the State officials now hereabouts think it a much higher figure All of the Democratic candidates of the party will be defeated at every turn, and a Union victories increase they will creep out from their holes and pray for the mountains to fall on them'

Leavenworth journals say the steam locomotive for navigating the plains is propelled by four engines of ten horse power each, and guided by its steering wheel six feet in diameter It will draw eight tons of freight up a grade of six hundred feet to the mile

Thinking that the horse breeders of Oregon would feel interested in knowing the number of stallions and jacks in different parts of the State I Oregon you will find the above number very nearly correct as taken by my Assistant A season Very likely there may be a few more in some localities that have not been visited by the Assessors They are all subject to U S tax of $10 each yearly One hundred and eighty two of the above number have been assessed the other four were two young or not fine and not for service Allowing twenty colts to each horse (which no doubt is under than an over estimate) we will have an increase to the horse family of 3,640, in the year 1864

I would also remark here that no person can recover a debt due him for the use of his horse, unless he has paid the U S tax of $10 per year, or for the season

I have known many wonderful cures of it, in cases of long standing and which had baffled the skill of the most eminent physicians, and have come to which is good for so many diseases and such a variety of pains, nothing can be said in over praise.

In Every Age of the World, the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each deprecates whatever is found to innovate upon received opinions and established usage. Hence the opposition which medical men too often exhibit to the use of private remedies, whatever their acknowledged value, or great efficiency in the cure of disease. No medicine has ever done more for the relief of human suffering than DR. OSGOOD'S INDIA CHOLAGOGUE. The certainty with which it cures Fever and Ague, and eradicates bile from the system is acknowledged by all. Do you prefer a speedy and effectual cure to a regular and scientific run of disease? Try the Cholagogue, and the object is accomplished. Then tell your suffering neighbor what it has done for you, that it may do the same for him.

NEWARK, OHIO, June 5, 1858.

MESSRS. A. L. SCOVILL & Co.—Gentlemen: It is with great pleasure that I inform you of the effects of DR. MOTT'S LIVER PILLS in my family. Four years ago I had the BILIOUS FEVER, although under the care of an old-school Physician, who treated me with Calomel until I was salivated, and my tongue was much swollen, and it was the cause of more pain than the disease itself. Finally he gave me up, and said that I could not live! I still lingered six weeks, and finally got over that attack with a broken-down constitution, subject frequently to attacks of Rheumatism in my bones when exposed, at least, to cold and dampness. Since that time I have had frequent similar attacks, and have, by the use of Dr Mott's Vegetable Liver Pills, broken up the disease without having the system injured by the use of calomel. I would not be without them on any account. Respectfully,

Miscellaneous Paragraphs.

Decapitation is the mode to which capital punishment is still carried out in Prussia. It takes place within the precincts of the jail, in presence of a certain number of persons, who are invited as witnesses.

Stockings "to suit the feet" are now sold in London. They are, like shoes, "right and lefts." The inner edge of each is quite straight to the extremity of the great toe, while the outer is rounded off to the shape of the foot.

The attempt making to restore Louisiana to the Union by repealing the secession act will undoubtedly be successful, as Louisiana never seceded, the vote of the people; the leaders never dared submit the act to the popular vote.

The New Orleans correspondent of the New York Herald, says: "We have just seen an extra of the Mobile Register, dated July 9; it contains a grandiloquent account of the battle of Gettysburg, and gives Lee credit for capturing 60,000 Union troops."

The Great Eastern sailed for Liverpool on the 21st of July, laden with grain, provisions, etc. It is fast becoming what it was intended to be, a mammoth floating hotel. During the last passage the passengers had races on board, so wonderfully steady is this great ship.

The Cincinnati Enquirer gives an account of a little girl, Eliza Sizer, aged two, who is a perfect monstrosity. The head measures fully three and a half feet in circumference—the forehead being at least seven and a half inches in height, and some fourteen to sixteen inches in breadth.

We learn from Capt Speke's narrative of his doings in the Uganda (Youguinder) country, that the King was terribly frightened, and disposed to treat the gallant traveler with more consideration when he suddenly opened his umbrella. The monarch thought it was a deadly weapon, killing by magic.

The rowing match for $1,000 and the championship of America, between Joshua Ward, of Newberg, New York, and James Hamlin, of Pittsburg, Pennsylvania, was won by the former in 12 minutes and 29 seconds, the distance rowed being five miles. Upwards of 20,000 people were present, and an immense amount of money changed hands on the result, the Pittsburg man being backed to win at $1,000 to $500.

Regarding substitutes the Hartford Post says: "The number of Canadians arriving here is on the increase. This is equally true of other cities. Over 200 reached Boston lately. There has been no much skedaddling from the States into Canada, that it has greatly reduced the demand for and price of labor, so that the Canadians themselves find it to their advantage to come here and offer themselves for substitutes, realizing the large premiums offered."

A person who was enrolled and drawn as a conscript in the Fourth District of Boston received his exemption papers on the 22d July, under rather peculiar circumstances. He presented a certificate from the Warden of the State Prison that he had been a convict in that institution on the charge of felony, and had served out his full term of imprisonment. Of course, after such an experience, he is exempt from serving in so honorable a position as that of a soldier in the Union army.

THE COLLAPSE OF THE REBEL LOAN.—The sudden collapse of the Confederate loan has not unnaturally filled the calculating friends of the South in this country with dismay. The stock, which on its introduction to the English market was so skillfully manipulated as to be quoted at a premium, has, during the last few days, sunk by successive plunges to twenty discount. On Tuesday morning, indeed, it could not be disposed of at any price, however low, but a few sales were eventually effected at seventeen discount. Yesterday, while other kinds of foreign stock rose, the shareholders' loan still retained its alarming position of severe and exceptional depression. Under these circumstances, it is hardly surprising that the panic of the shareholders' agents and representatives in this country should be extreme. This sudden fall in their favorite stock shows that the arts by which it has been so long supported are beginning to fail, that the outside world can no longer be deceived by smooth prophecies of Southern successes, but is taking the measure of current events for itself. It shows that the resources of plausible mystification are nearly exhausted, and the public are beginning to exercise their own judgment on American affairs.

The Confederacy has clever agents and advocates in this country as it has able leading men in America, and they have done their work well. Their representations have induced a number if ignorant and innocent people not only to believe in the omnipotence of the Confederate cause, but to invest their savings in its so-called cotton loan. But facts are stubborn things, and in the end break down the most skillfully constructed fictions, however long or loudly they may be reiterated. The inevitable crash is rapidly approaching, as its victims begin already to discern. The desperate game of speculation is nearly played out, and the public are beginning to see the Confederates in their true character. The panic of the players is, therefore, perfectly natural. A premature crash would obviously be fatal. At all hazards, some attempt must be made to delay the final catastrophe. Something, no matter what, must be said or done to restore temporary confidence, and prop up for a brief space the falling cause. If nothing else can be done, a resolute effort may at least be made to brazen it out for a time. It is the very moment to put on a bold front and use strong language, and the Confederate representatives in this country have accordingly bestirred themselves to meet the emergency.—*London News.*

EFFECT OF THE EMANCIPATION PROCLAMATION.—The following is an extract from a letter received by a Georgian, now a resident of Boston, from a fellow Georgian, a resident of New York, dated July 22d:

The exodus from the South, you once predicted, has fairly set in. Every day almost some new face drops in. They generally come from the upper part of Georgia, and seem glad to get here. I know of six gentlemen who are here from one place. One of them says the emancipation proclamation of Lincoln struck Jeff. Davis the hardest blow he has received. He says it has caused a large reduction in the Southern army by desertion; more so than the people of the North have any idea of. He says the poor white people are determined to fight for the negroes no longer. They have no interest in them, and look upon the war as one brought on by demagogues and slaveholders, to ride over the rights of the poor white people. He says he has heard repeatedly the soldiers say openly they would not any longer fight for the d—d niggers and their masters. The upper part of Georgia has but few slaves, anyhow, and I suppose the people there think more of their own comfort, and less of the rights of the slave owners, than in the low country. I was surprised, however, to hear from this old resident, and one who is a close observer of events, that the proclamation tended to divide the people of the South rather than unite them. The effect, doubtless, was different on the seaboard, according to information from as competent judges there, but Cherokee Georgia, like Tennessee, has always been for the Union, and now grows more and more so, as they suffer from Jeff. Davis' despotism. This is the cheering sign. The pound sterling was worth $45 in currency—gold, $1 for $8.

THE LAWS MUST BE OBEYED.—It is a remarkable fact that no attempt at riot in this country has ever succeeded, but is invariably put down by the power the lawful authorities are always able to command. Authority must be respected, and law must prevail over licentiousness. The attempt to overthrow the law turns every man who wishes to preserve his liberties and has any property to lose into an enemy of riot. No matter what the pretext may be for such unlawful action, society looks upon the attempt as an outrage against itself, and combines to defeat its intentions.

HELMBOLD'S Genuine Preparation.

'HIGHLY CONCENTRATED' Compound Fluid

EXTRACT BUCHU,

A POSITIVE AND SPECIFIC REMEDY

FOR DISEASES OF THE

BLADDER, KIDNEYS, GRAVEL

AND

DROPSICAL SWELLINGS.

This Medicine increases the power of DIGESTION and excites the ABSORBENTS into healthy action, by which the WATERY or CALCEROUS deposits, or stone, as well as PAIN and INFLAMMATION, are reduced.

MEN, WOMEN OR CHILDREN.

HELMBOLD'S EXTRACT BUCHU

For Weakness arising from Excesses, Habits of Dissipation, Early Indiscretion, Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Universal Lassitude of the Muscular System, Hot Hands, Eruptions of the Face, Dryness of the Skin, Pallid Countenance.

These symptoms, if allowed to go on, which the medicine invariably removes, soon follow

Impotency, Fatality, Epileptic Fits,

IN ONE OF WHICH THE PATIENT MAY EXPIRE.

Who can say that they are not frequently followed by those "direful diseases."

"INSANITY AND CONSUMPTION,"

Many are aware of the cause of their suffering, BUT NONE WILL CONFESS

THE RECORDS OF THE INSANE ASYLUMS,

And the melancholy deaths by Consumption bear ample witness to the truth of the assertion that

THE CONSTITUTION,

once affected by Organic Weakness,

Requires the Aid of Medicine,

to strengthen and invigorate the system, which

HELMBOLD'S EXTRACT BUCHU

invariably does.

A Trial Will Convince the most Skeptical.

FEMALES FEMALES!! FEMALES!!

OLD OR YOUNG,

Single, Married or Contemplating Marriage

IN MANY AFFECTIONS PECULIAR TO FEMALES, the Extract of Buchu is unequalled by any other remedy, as in Chlorotic or Retarded, Painful, Difficult, or Suppression of Customary Evacuations, Ulcerated or Schirrhous state of the Uterus, Leucorrhœa or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

AND

HELMBOLD'S IMPROVED ROSE WASH

CURES SECRET DISEASES,

In all their Stages, At Little Expense, Little or no Change in Diet, No Inconvenience, AND NO EXPOSURE.

It causes a frequent desire and gives strength to Urinate, thereby Removing Obstructions, preventing and curing Strictures of the Urethra, allaying Pain and Inflammation, so frequent in the class of Diseases, and expelling all Poisonous, Diseased and Worn out matter.

THOUSANDS UPON THOUSANDS

Who have been the victims of Quacks

and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "POISON" has, by the use of "Powerful Astringents," been dried up in the system to break out in a more aggravated form, and perhaps alter marriage.

Use Helmbold's Extract Buchu

For all Affections and Diseases of the URINARY ORGANS, whether existing in MALE OR FEMALE, from whatever cause originating, and

NO MATTER OF HOW LONG STANDING.

Diseases of these Organs require the aid of a Diuretic.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC,

And it is certain to have the desired effect in Diseases for which it is recommended.
